MESSAGE

The timely and reliable data/information is the backbone of the effective and informed policy formulation for social and economic development. The release of 10th Report on All India Survey on Higher Education (AISHE-2019-20) will provide the series updated time series data on various indicators on higher education, which will be immensely useful for the purpose of policy making within and outside Government.

The Report, with important estimates on higher educational indicators related to enrolment, gender parity, pupil teacher ratio, infrastructure, etc. at desegregated levels, will provide a detailed picture of the higher education scenario of the Country by enabling inter-State comparison of important educational Indicators such as GER, GPI, PTR, etc. which are useful in assessing the present position of country and also for comparison at international level. This report is highly used by the Central and State/UTs Governments for the purpose of policy formulation.

I appreciate and encourage the efforts made by all the officers of the Department of Higher Education for bringing out this Report. I also thank various stakeholders including AISHE Nodal officers for their valuable contributions and support in this endeavour.

PREFACE

The Report of All India Survey on Higher Education (AISHE) contains very useful information on various aspects of the Higher Education in India and provides reliable data for evidence based decision making and planning. The Report has been prepared based on information collected online through AISHE portal (*www.aishe.gov.in*) wherein most of the institutions of Higher Learning viz. Universities, Colleges and Stand Alone Institutions from all over the country have registered themselves and uploaded information concerning them in special designed Data Capture Formats (DCFs) and Teachers Information Format (TIFs). The Report also includes time series data in form of various Tables giving information on a large number of parameters.

A need was felt this year to create awareness and clarity among Institutions of Higher Education about finite detailing and technical aspects of the survey. As such, four Workshops at Manipur, Goa, Telangana and Chhattisgarh were held each of which was attended by participants from respective States and Universities in that State.

I extend my sincere gratitude to **Shri Amit Khare**, Secretary, Higher Education for his valuable support and guidance at each stage of this survey. This Report has been brought out in record time of about 7 months after the launch of AISHE 2019-20, credit for which goes to the officers of Planning, Monitoring and Statistics Bureau of Department of Higher Education, specially Shri Joseph C.F., Director and his team and other staff of the Bureau and also to Technical Support Group (TSG)-HESPIS.

This challenging task would not have been possible without the support extended by state Nodal agencies. I am also thankful to regulatory bodies – University Grants Commission, All India Council of Technical Education, Medical Council of India, Indian Nursing Council, Indian Council of Agricultural Research, etc and State Governments. A work of this nature would not have been possible without technical support from NIC team lead by Shri Y. K. Singh, Sr. Technical Director.

CHAPTER 1 – INTRODUCTION

All India Survey on Higher Education (AISHE) was initiated in 2011 during which data for the year 2010-11 was collected. The survey was utmost necessary as none of the source of data on Higher Education was giving complete picture of Higher Education in the country. For the first time all the major Stakeholders in Higher Education such as University Grants Commissions, All India Council for Technical Education, Medical Council of India as well as State Governments participated in the data collection exercise. The entire survey was conducted through electronic mode and a dedicated portal *http://aishe.gov.in* was developed for this purpose, thus making the exercise completely paperless. The survey intended to cover all the Institutions in the country engaged in imparting Higher Education. Data is being collected on several parameters such as teachers, student enrolment, programmes, examination results, education finance, infrastructure, etc. Indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil Teacher Ratio, Gender Parity Index, etc. are calculated from the data collected through AISHE. These are useful in making informed policy decisions and research for development of education sector. The survey is being conducted on annual basis. It is pertinent to mention that the results published in this report are based on number of institutions who have registered and uploaded their information in specially designed Data Capture Formats (DCFs). Thus, there is possibility that all Institutions of Higher Education may not have registered on AISHE 2019-20.

1.1   Steering Committee and Working Group: The XII five-year Plan categorically highlighted the need for a strong current and comprehensive data for evidence-based policy making and effective planning. The Plan document also took note of the All India Survey on Higher Education initiated by the Ministry of Education and indicated that it can provide useful insights and can be the first step towards creating a comprehensive higher education data management system. Keeping this in view, a new plan scheme Higher Education Statistics and Public Information System (HESPIS) has been approved in XII Five Year Plan. With a view to ensure coordinated approach to all these efforts, particularly data collection efforts and benefit from synergy in such efforts, a Steering Committee for Higher Education Statistics and Public Information System has also been constituted under the chairmanship of Secretary (Higher Education), MoE and different stake-holders as members. The notification on constitution of the Steering Committee and its Terms of Reference is given at Annexure-1.

1.2   The Central Sector Scheme: The scheme of Higher Education Statistics and Public Information System (HESPIS) under which the survey is being conducted since XII Five Year Plan has been extended for continuation up to 2019-20 by the Standing Finance Committee (SFC) with an out lay of Rs. 64.09 crore.

1.3   Identification of Institutions for Coverage: The Institutions have been classified in following 3 broad categories

- University and University Level Institutions i.e., the Institutions which are empowered to award degree under some Act of Parliament or State Legislature.

- Colleges/Institutions which are not empowered to provide degree in its own name and therefore are affiliated/recognised with Universities.

- Stand-alone Institutions (not affiliated with Universities) which are not empowered to provide degree and therefore run Diploma Level Programmes. During the survey, following 7 types of such Institutions have been covered.

  1.   Technical Institutes such as Polytechnics recognized by AICTE/State Directorate of Technical Education

  2.   Post Graduate Diploma in Management (PGDM) Institutes recognized by AICTE

  3.   Teacher Training Institutes such as District Institute of Education and Training recognized by National Council for Teacher Education

  4.   Nursing Institutes recognized by Indian Nursing Council/State Nursing Council

  5.   Institutes directly under the control of various Central Ministries

  6.   Paramedical Institutes as recognized by Paramedical Council

  7.   Hotel Management & Catering Institutes recognized by National Council for Hotel Management & Catering Technology

1.4   Reference Period for AISHE 2019-20: Reference date for filling up the Data Capture Formats was 30th September 2019. The number of institutions, teachers and students has been recorded on the basis of their actual number as on 30th September 2019. Information in respect of Examination Result has been collected for the students passed out/awarded degree on or before 30th September 2019 for the previous academic year. Financial Information has been recorded for the previous financial year i.e., 1st April 2018 to 31st March 2019.

1.5   Formulation of Concepts and Definition and Instruction Manual: All the terms generally used in higher education such as university, college, programmes, discipline, faculty, department have been clearly defined in the Instruction Manual for AISHE 2019-20 is available in the portal (www.aishe.gov.in) which also includes item-wise instructions to fill the forms. Concepts and Definitions used in the survey are given at Annexure 2.

1.6   List of Higher Education Institutions: Earlier lists of all the Universities and Stand-alone Institutions were prepared by adopting the following method:

- Consulting the websites of the State Government Departments, Ministries and Institutions.

- Consulting all the Central Ministries, Councils and State Governments for providing the list of Institutions under their control.

Different colleges are regulated with different regulatory bodies. There are some colleges whose programmes are recognised by more than one regulatory body. To avoid such duplication or omission, University was identified as best source to prepare the list of colleges.

In addition, the following mechanism was also adopted to update the list of institutions for 2019-20.

- List of Universities through State Governments, Central Ministries, UGC and self-disclosure by the Universities, which is to be verified by the Act of the University.

- List of Colleges through Universities

- List of Stand-Alone Institutions through respective Councils, State Governments and Central Ministries

An online module has been developed to update the list of institutions. Apart from addition and deletion, module has been developed to affiliate and de-affiliate colleges which maintain the identity of the college even after shifting from one University to other. A provision has also been made for those colleges which are upgraded to University so that there is always a backward linkage.

1.7   Partner Agencies: Statistics Division, D/o Higher Education, Ministry of Education is primarily responsible for formulation and design of the survey, which includes preparation of DCF, providing training to nodal officers in workshops, engagement with National Informatics Centre (NIC) in software development, etc. The software support was provided by NIC. Several regulatory authorities such as

UGC, AICTE, MCI, etc. also took part by instructing their institutions for providing information in the survey.

Nodal officers in each State are expected to coordinate the survey work. Most of the States have nominated Higher/ Technical Education department as Nodal department/ agency for coordinating the Survey. Along with State nodal officers, 3 more nodal officers, one each from Directorate of Technical Education (for Polytechnics), SCERT (for DIETs and Teacher Training diploma level institutions) and State Nursing Council have also been designated to co-ordinate with Standalone Institutions. The names of these State Nodal officers and University Nodal Officers (Affiliating) are shown at Annexure-3 and Annexure-4 respectively.

1.8   Mode of Survey: A dedicated portal (http://aishe.gov.in) has been developed with the help of National Informatics Centre (NIC) for collection and compilation of the data. All the Institutions need to register on the portal for accessing the portal and uploading their data. The registrations of the Institutions are approved by appropriate level of officers at State/ Central Level and in case of colleges, by University nodal Officers. The e-version of DCF has been prepared in such a manner that it expands according to the structure/size (Number of Faculties/ Departments, Programmes, etc.) of the Institution. The Data Capture Format is downloaded from the portal, filled off-line and then filled-in DCF is uploaded, which has made it completely paper-less. DCF has been designed in such a manner that no manual aggregation is required at any level. No investigator is sent to the Institution to collect the data. In fact, the nodal officers appointed by the Institutions themselves are the Investigator and they are responsible for filling up the DCF and uploading it on portal with an undertaking from head of the institutions. This eliminates the duplication of effort in data entry once form is uploaded by the Institution. Once data is uploaded by the Institutions, data compilation is done automatically in pre-designed formats. Filled-in DCFs are available on the portal, which can be seen and modified by the Institutions and higher-level authorities, if required, till survey is open.

1.9   Duration of the Survey AISHE 2019-20: The survey was launched on 1st January, 2020. Data uploading started from that very first day of its launching and continued till 15th August, 2020. One of its special features is that data, such as basic details, name of faculties/departments and list of programmes can be pre-filled in future survey DCF from the previously filled-in DCF with an option to edit pre-filled data.

1.10   Institutions Uploaded Data under Survey: In AISHE 2019-20, 993 Universities, 38,102 Colleges and 8,631 Stand-alone Institution have uploaded the form on the portal. However, in addition to the actual response received during AISHE 2019-20, data has been pooled from the AISHE data uploaded during last two years of Higher Education

institutions which existed in 2019-20 but could not upload the data in present survey years. So, by pooling, the results are actually based on response from a larger number of institutions than the actual response of 2019-20 survey which can be seen from the following Table.

Box 1: Registered Number of Institutions with their data uploading response			
	Universities	**Colleges**	**Stand Alone Institutions**
Listed for AISHE 2019-20	1043	42343	11779
Actual Response in AISHE 2019-20	993 (95.2%)	38102 (90.0%)	8631 (73.3%)
Total number of Institutions after pooling data from AISHE 2017-18 to AISHE 2018-19	1019 (97.7%)	39955 (94.4%)	9599 (81.5%)

Andhra Pradesh, Arunachal Pradesh, Chandigarh, Delhi, Goa, Haryana, Himachal Pradesh, Puducherry, Tamil Nadu, Jammu & Kashmir, Karnataka, Kerala, Maharashtra, Manipur, Punjab, Telangana and Uttarakhand also have GER of more than 30% for female in all category.

Figure 19: GER Distributed according to Social Group and Gender
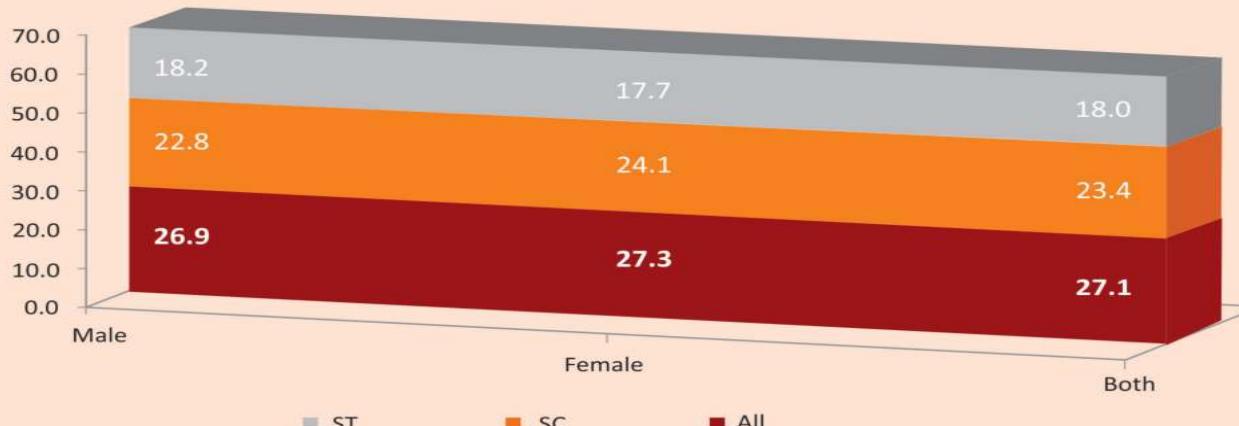

For international comparability, GER has also been calculated taking 18-22 years Population and it comes out to be 31.5% at All India Level.

Figure 19 (a) shows Gender Parity Index (GPI) for All Groups, SCs and STs. It may be seen that Female participation in Higher Education for All Groups is 101 per 100 male and for Scheduled Casts (SCs) and Scheduled Tribes (STs) it is 105 and 97 per 100 male respectively.

2.4 TEACHING POSITION

The detailed information about individual teachers have been obtained in a separate Teacher Information Format (TIF). Information on new fields such as country name, date of joining the institution and profession, qualification, etc. were collected in the TIF. The total number of teachers giving the information through TIFs for the year 2019-20 are 15,03,156 as compared to total number of Teachers (14,16,299) for the year 2018-19.

Out of total no. of 15,03,156 teachers for 2019-20 about 57.5% are male teachers and 42.5% are female teachers. The lowest gender proportion is recorded in Bihar where female to male teachers' ratio is 1:4 which in percentage terms is 78.4% for male and only 21.6% for female teachers. Jharkhand comes close second with 69.5% male teachers and 30.5% female teachers. Uttar Pradesh has 31.9% female teachers of the total teachers in the State. A few States like Kerala, Punjab, Haryana, Chandigarh, Meghalaya, Nagaland, Delhi and Goa on the other hand have more female teachers than male teachers.

At All-India level, teachers belonging to General group are more than half, i.e., 56.5% of the total number of teachers in India; OBC follows with 32.1%; while SC and ST with 9.0% and 2.4% respectively (Figure 20). About 5.6% teachers come from Muslim minority group, and 9.0% are from other minority groups. State-wise number of teachers in various Socio-religious group is given in Table 21 (a) and 21(b). Out of the 10 major States, the leading 3 are Tamil Nadu with 11.1% SCs and 0.3% STs, Maharashtra with 11.6% SCs and 1.6% STs and Uttar Pradesh with 8.5% SCs and 0.2% STs, teachers.

Figure 20 : Social Group-wise Distribution of Teaching Staff
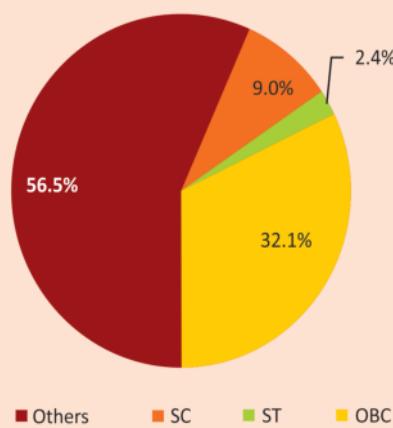

Figure 21 : Teachers: SC, ST, OBC, Muslims: Top 10 States
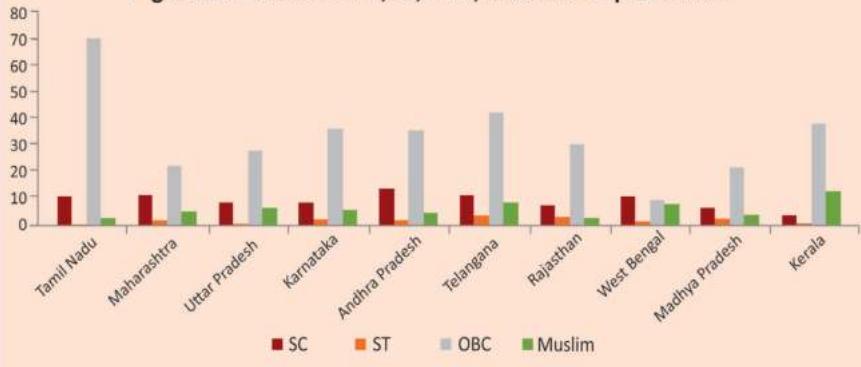

As mentioned above, another significant representation in terms of gender distribution is the number of female teachers per 100 male teachers. At the all-India level there are 74 female teachers per 100 male teachers. Similarly, in SC group there are 58 female teachers per 100 male teachers and in case of ST and OBC, it is 72 and 69 female per 100 male teachers,

Figure 22 : Teachers: Gender Distribution in Social and Religious Groups

respectively. For Muslim minority, it is 58 female teachers per 100 male whereas for other minority, there are 154 female per 100 male teachers. However, it is to be noted that female representation of teachers belonging to Persons with Disabilities (PWD) group is low, that is 36 female per 100 male teachers.
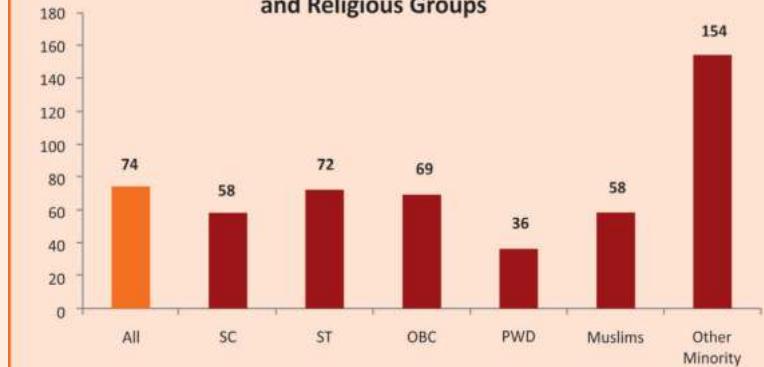

Among various levels of posts, majority of teachers are of the level of Assistant Professor, followed by Associate Professor. The distribution is shown in Figure 23 and the number of female teachers per 100 male teachers at various levels of post is shown in Figure 24.

Figure 23 : Teachers: Post-wise Distribution
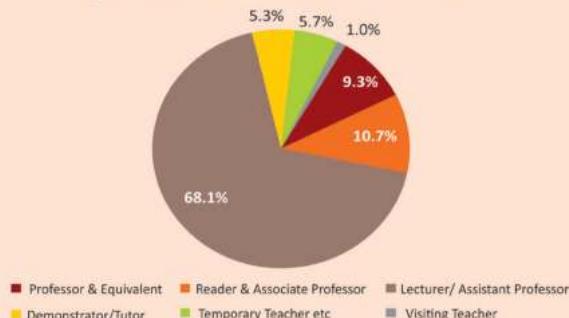

Figure 24 : Teachers: Post-wise Gender Distribution
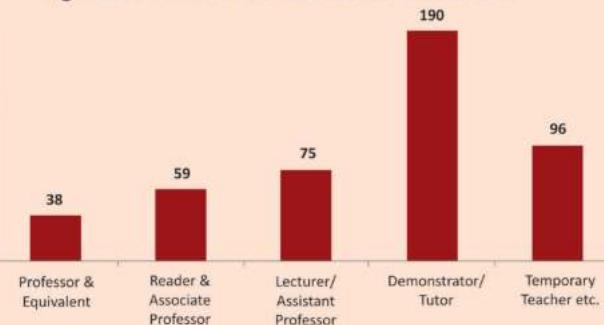

The state-wise number of teachers at various levels are given in Table 22. There are 14575 visiting teachers also; among them 55.6% are male.

The number of total teachers at University level is around 2.14 lakh out of which 62.9% are male and 37.1% are female. At college level, the number of teachers are 11.3 lakh with 56.4% male teachers. In Stand-alone institutes, total number of teachers is 1.57 lakh with 58% male teachers. Looking at female per 100 male teachers, there are 59, 77 and 72 female teachers per 100 male teachers at

Figure 25 : Female per 100 Male Teacher in different type of Institutions

Universities, College and Stand-alone Institutions, respectively.
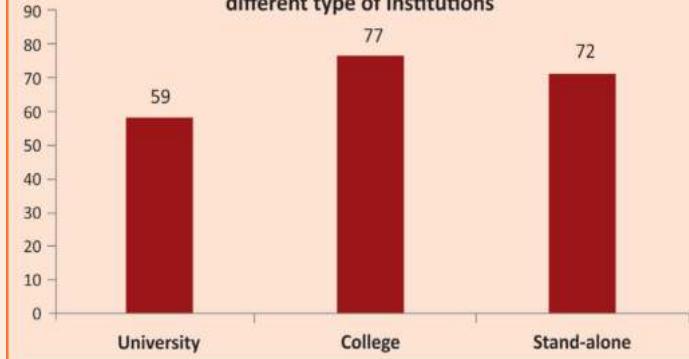

In different types of Stand-alone Institutions, the number of female teachers per 100 male teachers is varying significantly as there are only 47 female teachers per 100 male teachers in Technical/ Polytechnic

Figure 26 : Female per 100 Male Teacher in Standalone Institutions

Institutions, 69 in Teacher Training, 62 in PGDM Institutions and 18 in Institutions under Ministries which is the lowest. Contrast to this, nursing courses has 312 female teachers per 100 male teachers which is the highest among all the types as shown in figure 26.
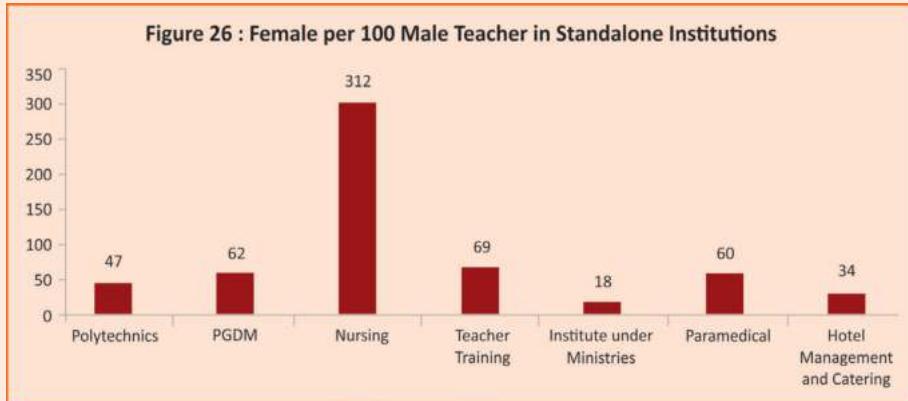

2.4.1 Pupil Teacher Ratio

Taking into account all types of Institutions (University, Colleges and Stand-Alone Institutions), Pupil Teacher Ratio (PTR) at All India level comes out to be 26 [and 23 if only regular enrolment is considered]. In case of University and its Colleges, PTR is 28 for regular mode. It has been observed that, PTR in University along with its Constituent Unit is significantly high at 18 in case of Regular Mode. Looking at the State-wise variation, it is seen that there are

> Pupil Teacher Ratio (PTR) in Universities and Colleges is 28 in Regular mode

large variations among the States. PTR is more than 50 in Bihar and Jharkhand. Among top 6 States in terms of Enrolment, Karnataka and Tamil Nadu have the best PTR of 18 each, in terms of regular mode in all institutions. State-wise details of PTR are given in Table 25.

2.5 NON-TEACHING STAFF

The non-teaching posts in responding Institutions are 12,90,701 and are divided into four groups –A, B, C and D. The share of Group-C is the highest with 40%, while Group-D stands second with 28%. Group-A and Group-B comprise of 15% and 17% non-teaching posts, respectively (Figure 27).

Figure 27 : Distribution of Non-Teaching Staff according to Levels

■ Group - A ■ Group - B ■ Group - C ■ Group - D
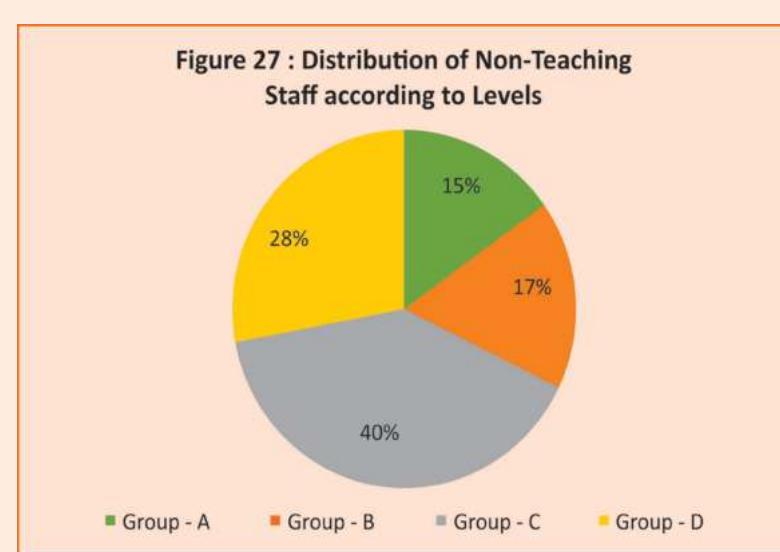

Looking at the male and female distribution among non-teaching posts as in Figure 28, we have a picture similar to that of teaching staff and student enrolment in India as the total male non-teaching staff is more than female staff, which is 66.3% as compared to 33.7% female staff.

Figure 28 : Level wise Gender Distribution of Non-Teaching Staff
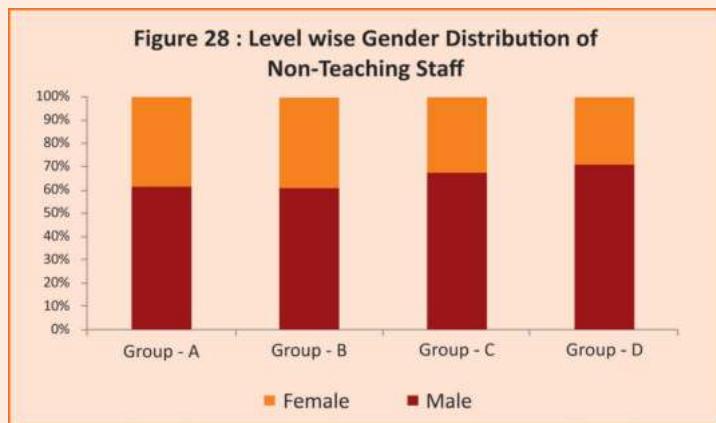

In group-wise posts, the non-teaching staff have more male members in each group as shown in Figure 28. There are 61.4% male and 38.6% female in Group A, while in Group B, 60.9% are male staff members and 39.1% female staff members. In Group D male share is at 70.8% as against 29.2% female, while in Group C there are 67.3% male staff.

In Bihar the male staff share is the highest with 83% and only 17% female, while Uttar Pradesh also have a higher share of male staff with 77.9% and 22.1% female. West Bengal comes third with 76.8% male and 23.2% female staff. This same picture is reflected in the group-wise break up non-teaching Staff. State-wise number of non-teaching staff in different groups in responding Institutions is given in Table 23.

In regard to social group, 52.8% non-teaching staffs are from General Category, 28.3% are from OBC, 14.3% from Scheduled Caste and 4.5% are from Scheduled Tribe. State-wise number of non-teaching staff in different social group given in Table 24.

Figure 29 : Social Group-wise Distribution of Non-Teaching Staff

The average number of female per 100 male non-teaching staff is approximately 51. The highest number of female per 100 male non-teaching staff is 85 from Other Minority communities and Muslims have the lowest number of female per 100 male non-teaching staff with 36 female. SC has 58, ST has 60, OBC has 50 and PWD has 41 female as compared to 51 General group female, per 100 male non-teaching staff.

2.9 ENROLMENT IN PROFESSIONAL COURSES

Professional education is defined as higher educational programmes that are designed for learners to acquire the knowledge, skills and competencies specific for a particular occupation or grade or class of occupations or trades. Exhaustive lists of Fields of Education are listed in Indian Standard Classification of Education (InSCED) published by Ministry of Education, which are categorized on the basis of academic and professional orientation. Management wise distribution of enrolment into academic and professional education at Post Graduate and Under Graduate levels are shown in Box 14. Enrolment in courses at integrated level have also been included at appropriate levels and is not considered separately.

CHAPTER 3 – ESTIMATION METHODOLOGY

The information in AISHE was collected from all institutions of higher education, broadly categorised in three categories namely University, College and stand-alone Institution that are registered on AISHE portal. Actual response was received from 95.2%, 90.0% and 73.3% of these categories, respectively. The data so collected are pooled for estimation by including last two years (2017-18 to 2018-19) data of Institutions of Higher Education that did not upload data in 2019-20 survey. While pooling it was ensured that the institutions are existing in 2019-20. After pooling, the percentage of data uploading for University, Colleges and stand-alone institutions was arrived at 97.7%, 94.4% and 81.5%, respectively for the year 2019-20.

The most important and phenomenal task for the survey during 2014-15 was to compile the list of Colleges. There are numerous players in this field, which were not easily identifiable. An exhaustive list of colleges in the country was not available and therefore university was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during 2010-11. Software was designed in such a manner that as soon as the university uploads its form on the server, college list was automatically populated in the data-base. All the affiliating University except the 7 have uploaded the data in year 2010-2011 and therefore almost complete list of colleges were available. During 2011-12 and onwards all the remaining affiliating Universities were also contacted and comprehensive list of colleges are prepared through Institution Management Module of the portal. Presently, in order to update the college list, request for addition of colleges (new/remaining) is received from the concerned officer and added in AISHE college list based on approval of UNO/SNO.

College means any Institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a university and which, in accordance with the rules and regulations of such university, is recognised as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by or admitted to the privileges of the University.

Colleges are generally of two types:

(i) University/Constituent College maintained by the University

(ii) Affiliated College

The data for Universities, Colleges and stand-alone institutions are collected online through dynamically generated specially designed software. All the Universities/University level institutions except the 50 universities out of 1043 have uploaded the data in the year 2019-20. During 2011-12 and onwards all the affiliating Universities were contacted and comprehensive list of colleges was prepared through Institution Management Module of the portal. Presently, in order to update the college list, request for addition of colleges is received online through AISHE portal and based on approval from UNO/SNO, colleges are added in college list of AISHE.

In addition to the Affiliated and Constituent colleges, for Off-Campus Centres/ PG Centres and for Recognised Centres of Universities, DCF-II (the format in which the data was required to be submitted) was available to be filled-in. All the Constituent Colleges, the Affiliated Colleges and the Off-Campus Centres were required to fill DCF-II. Constituent units of University, primarily of Private and Deemed Universities, which are integral part of University, have also been listed by these Universities as Constituent College. However, DCF-II for such units were not required to be filled. For Recognised Centres, in normal cases, DCF-II has not been filled, but in a few cases where these are independent institutions, DCF-II has been filled.

Off-Campus Centre/ PG Centre is a centre of the University established by it, outside the main campus (within or outside the state) operated and maintained as its constituent unit, having the University's compliment of facilities, faculty and staff. A Recognised Centre is an institution attached with the University for the purpose of awarding degree in respect of programmes being run in these institutions. e.g., Army Cadet College Wing, Indian Military Academy, Dehradun is not affiliated with any University but the degree in respect of Programmes run in the institute are awarded by Jawaharlal Nehru University.

Thus, there are four types of College/Institution, for which DCF-II have been filled:

1. Affiliated College
2. Constituent College
3. PG and off-campus Centre
4. Recognised Centre

Enrolment for Graduate and Postgraduate has been estimated only for affiliated colleges based on stratified sampling technique. Post-Stratification has been done, after the survey for the year 2019-20 is closed.

Affiliated Colleges have been divided into two strata; one is Large College and other Small College. Large Colleges are those, which have enrolment of 3000 or more and the remaining are Small Colleges. In absence of a priori information, it has been assumed that all large colleges have uploaded the data i.e., in the population the number of large colleges is equal to the number of such colleges that have uploaded DCF-II. Thus, we have avoided over estimation of enrolment of colleges. Average enrolment at a particular Level for the colleges of a particular University has been taken to estimate the enrolment of all colleges of that University. The Estimation formula is given at Annexure-6.

CHAPTER 4 – TIME SERIES DATA ANALYSIS

4.1 Growth in Number of Higher Educational Institutions

The number of universities and similar institutions listed on AISHE portal has increased from 799 in 2015-16 to 1043 in 2019-20 by almost 30.5% as shown in figure 40. Whereas the number of colleges has increased from 39,071 in 2015-16 to 42,343 in 2019-20 by about 8.4% as shown in figure 41.

4.3 Trend in Gross Enrolment Ratio

Gross Enrolment Ratio (GER) has increased during the last 5 years, from 24.5 in 2015-16 to 27.1 in 2019-20. The increase is more under SC category which has increased from 19.9 in 2015-15 to 23.4 in 2019-20. In case of ST category, the GER has increased from 14.2 to 18.0 during this period. In comparison to male, the increase in GER is higher for female. The Figures 54 and 55 depicts the growth in GER for social group and for the two genders, respectively. Gross Enrolment Ratio during last 5 years is given in Table 47. GER varies considerably in different States, although it has generally increased in all the States. Enrolment ratio for major states as compare to All India has been shown in figure 56.

4.4 Trend in Gender Parity Index

There is an increase in Gender Parity Index (GPI) for all the social groups as shown in the figure 57. It has increased during the last 5 years, from 0.92 in 2015-16 to 1.01 in 2019-20. For SC, GPI has increased from 0.91 to 1.05 and for ST; it has increased from 0.83 to 0.97 during the period. GPI has also increased marginally across all the States. State-wise and Social group-wise Gender Parity Index during last 5 years is given in Table 48.

4.5 Trend in Pupil Teacher Ratio

Pupil Teacher Ratio (PTR) over the years is shown in the Box 17. State-wise PTR for All Institutions, University & Colleges and University & its Constituent Units for the last 5 years taking the enrolment through Regular Mode of education and through both Regular & Distance mode are shown in Table 49. It is pertinent to mention that PTR for the year

Box 17: PTR for Regular Enrolment		
Year	University & Colleges	University & its Constituent Units
2015-16	21	16
2016-17	25	19
2017-18	30	20
2018-19	29	18
2019-20	28	18

2016-17 and 2017-18, is showing declining trend which is mainly due to the fact that number of teachers who were either not having Aadhar or were reluctant in providing their Aadhar numbers in TIF, were not taken into account while calculating PTR, because such Teachers' details/numbers could not be collected in AISHE for these two years.

4.6 Growth in Number of Teachers

The number of Teachers has grown from 15,18,813 in 2015-16 to 15,03,156 in 2019-20. State-wise and Post-wise Number of Teachers during last 5 years are given in Table 51. At all levels representation of total teachers has decreased from 2015-16 to 2019-20. The scenario over the years is shown in figure 58.

4.7 Trend in programme-wise enrolment at various levels

Enrolment in various programmes at Under Graduate level has increased over the years in regular mode of education except in B.A. and B.Tech., where it has started showing a declining trend recently. In figure 59 enrolments in important programmes at PG level has been shown.

Section 12 of the UGC Act, 1956 states Power and Functions of the University Grants Commission:

It shall be the general duty of the Commission to take, in consultation with the Universities or other bodies concerned, all such steps as it may think fit for the promotion and co-ordination of University education and for the determination and maintenance of standards of teaching, examination and research in Universities, and for the purpose of performing its functions under this Act, the commission may:

Enrolment Estimation Formula

Estimated enrolment at I^{th} Level for k^{th} Type of college in i^{th} State,

$$E_{ikl} = \sum_{j=1}^{u_i} \frac{N_{ijk}}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} \text{ , i = 1,2,............, 37}$$

where, e_{ijklc} = Enrolment in c^{th} College at I^{th} Level in k^{th} Type in j^{th} University in i^{th} State,

n_{ijk} = Number of responding colleges of kth Type in j^{th} University in i^{th} State,

N_{ijk} = Total number of colleges of kth Type in j^{th} University in i^{th} State,

u_i = number of University in i^{th} State,

k = 1, 2, 3 & 4 ; 1, 2, 3 & 4 stands for Affiliated college, Constituent college, PG/Off-Campus Centre & Recognised Centre respectively,

For, k=1,2,3,4, $n_{ijk} = N_{ijk}$

I = 1, 2, ... 8 ; 1, 2, 3, 4, 5, 6, 7 & 8 stands for Ph.D., M.Phil, Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate & Integrated respectively.

Total Estimated enrolment at I^{th} Level

$$E_l = \sum_{i=1}^{37} \sum_{k=1}^{4} E_{ikl}$$

Estimation to be made for those Levels, for which sufficient response has been received. Where, Coefficient of Variation is high and n_{ijk} is small, no estimation is proposed.

When response within University is less than 10%, (n_{ijk}/N_{ijk} < 0.10), the following assumption is made:

$$\frac{1}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} = \frac{1}{\sum_{j=1}^{u_i} n_{ijk}} \sum_{j=1}^{u_i} \sum_{c=1}^{n_{ijk}} e_{ijklc}$$

The survey covers all the Institutions in the country engaged in imparting of higher education. Data is being collected on several parameters such as teachers, student enrolment, programmes, examination results, education finance, infrastructure.

Indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil-teacher ratio, Gender Parity Index, Per Student Expenditure will also be calculated from the data collected through AISHE. These are useful in making informed policy decisions and research for development of education sector.
